VROOM

VROOM

Damn militants, i hope they won't suspect anything...

Come in, come in, the theater is yours

Everyone get in

We got a situation before us...

After several days looking for the ideal actress, i cannot say i did very well. With all due respect to miss Vixi, i decided to lower my standards, for this reason we will have to teach her to act

Cami, please come, it's important

Dog Silo, explain her about her role. I'll be back soon.

First of all, i'm Silo Dog

My character is Maqui, and your purpose in this scene is to make me break up with my "wife" Luci. Begin with those lines

Mmm, consider that while in the theater you must get the attention of the most distant audience, don't be afraid to exaggerate a little

My apologies, but we will have to continue next cycle, you all need to leave

Silo, you stay

Did i screw up?

I better find out

This place is really big, or i'm too small...

!

blablabla...

Galeo, the best we can do is to move those things elsewhere

We have taken too many risks already

I know, but there is no other place; there are soldiers everywhere; i only ask for one more week

Confirm me one thing, Galeo. is there a raid programmed here in my theater this week? Are you sure you haven't been discovered?

Gross! Surely it was the kid...
It stinks!, and probably they will blame me
I'll never get caught, he, he

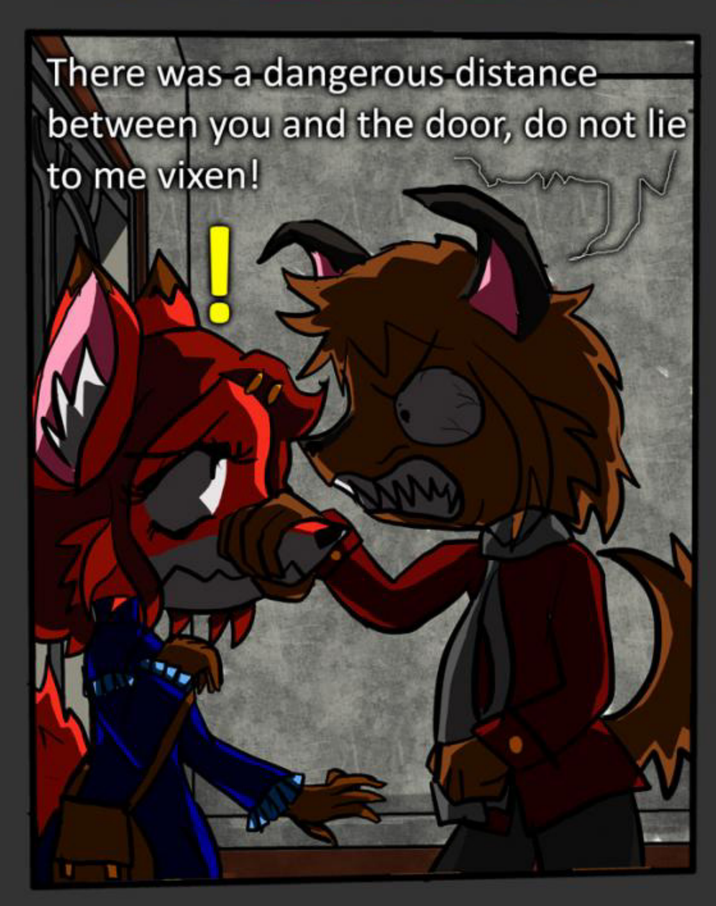

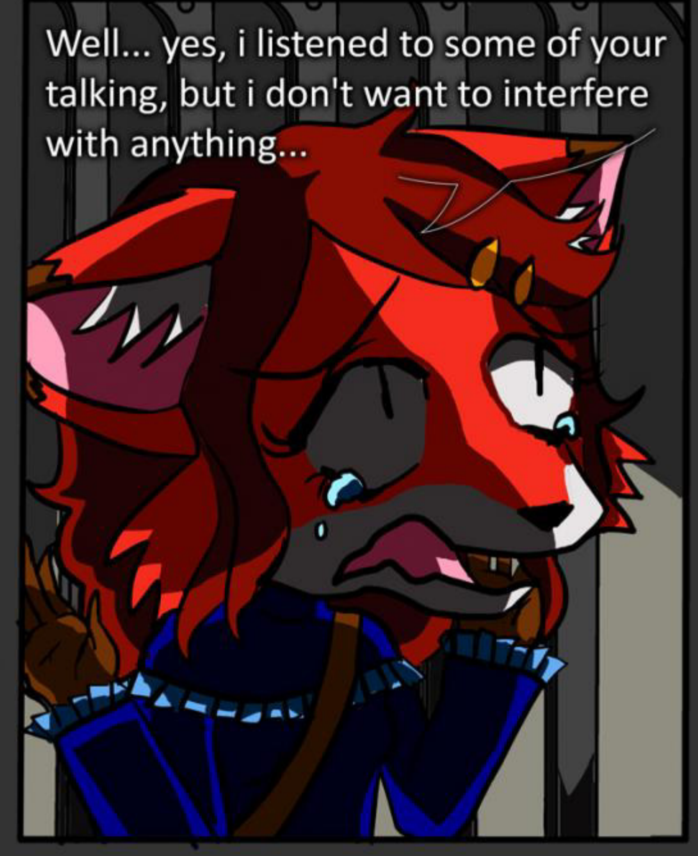

Vixi

Mmm?

Hello... What's up? You're Silo, right?
Tell me. How much did you hear?
Nothing...

There was a dangerous distance between you and the door, do not lie to me vixen!
!

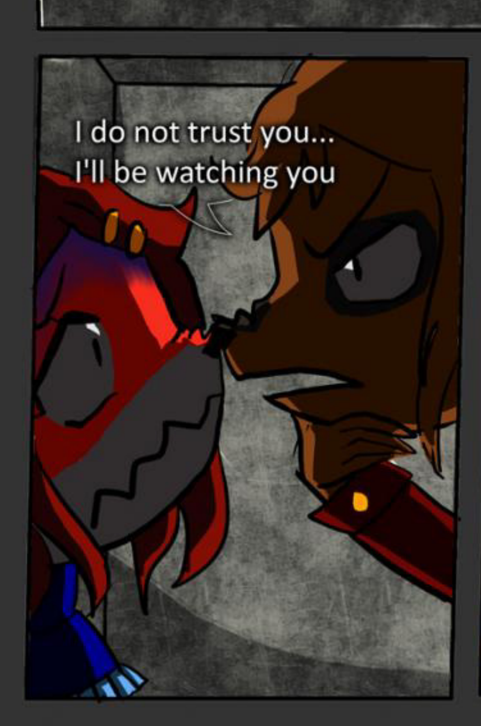

Well... yes, i listened to some of your talking, but i don't want to interfere with anything...

I admit i heard that you guys are hiding something but i don't want to know, i'm just a loser who didn't finish even secondary school, and i just want to work...

Stupid elevator...
TRAK!
Broom
TRAK!

Hold it right there, you're under arrest!

Ha! You believed to escape from the great and brave Vixi?
Well, today is not your day, pirate, he, he, he

...
Good thing i live alone
Stupid Vixi...

That "domestic puppy" really frightened me."I'll be watching you" blah-blah. Jerk!

The director is kind of a FAGGOT! right?

Pff... It's obvious he has problems with illegal substances. It's a high risk, as high as catching that pamphlet pirate

He is the bastard that will pay your salary

It would be... Exciting. Imagine Vixi arresting a pirate. Compliments, rewards. i'd get a job in the police or something
Courage, adventure

You won't last a week, woman...
Cowardice

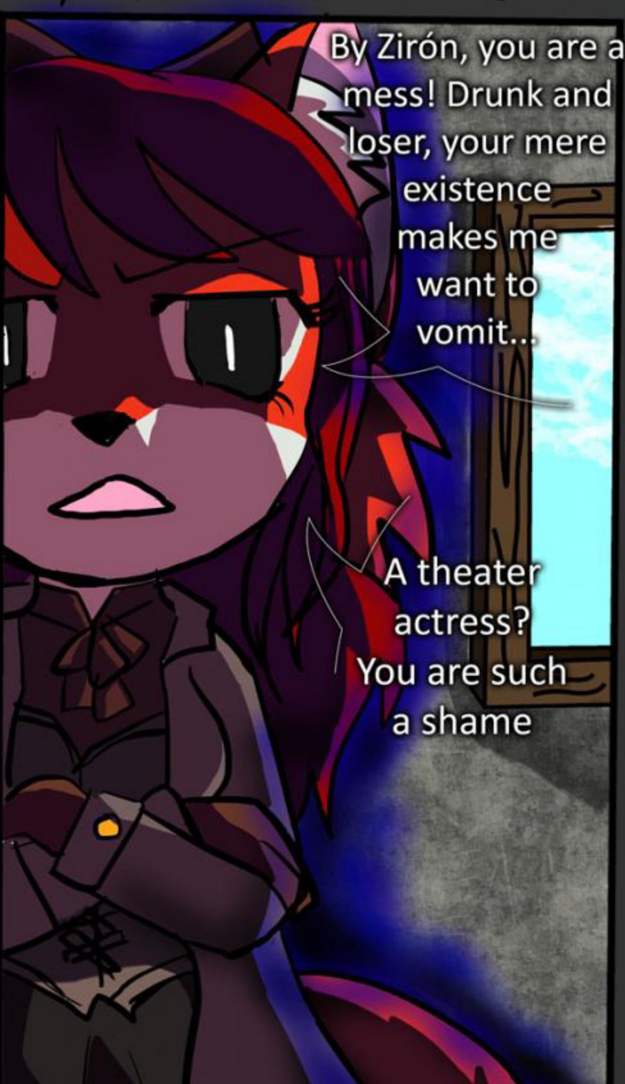

I don't give a damn... I can barely deal with myself...
I think you should control your drinking, you are talking nonsense

Go to hell! Y-you aren't my mother!
Hic

But I am, you silly!

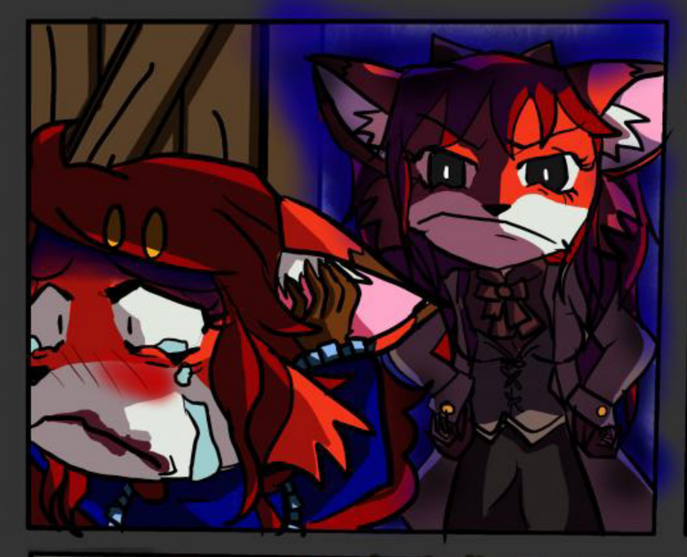

Mom! No, i don't want to see you! Go away!

Pffff!

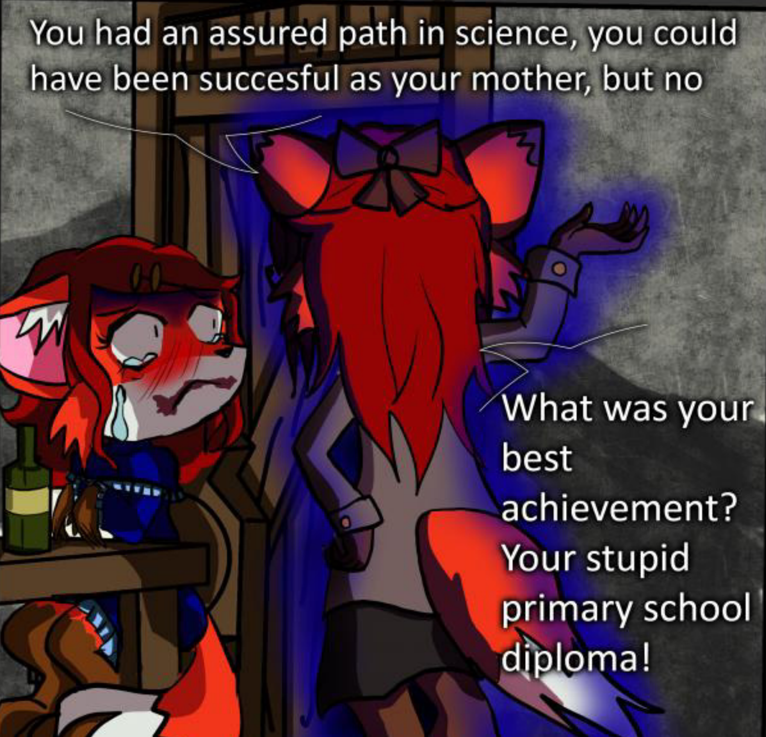

By Zirón, you are a mess! Drunk and loser, your mere existence makes me want to vomit...
A theater actress? You are such a shame

I don't want to hear you! Just go already!
Don't even bother, you will still hear me; You're just making me feel even more angry

And you, definitely, do not want me to get angry. Take... your claws off... your ears, little daughter...

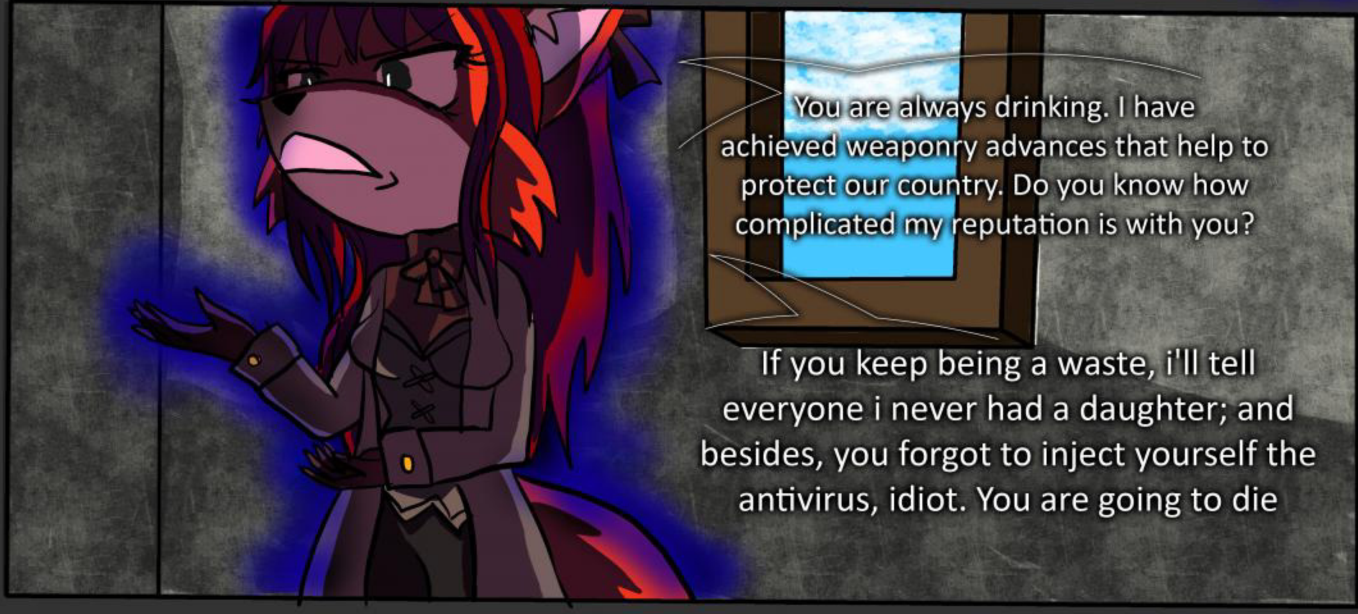

You disrespectful brat! Take your claws off your ears!

You had an assured path in science, you could have been succesful as your mother, but no
What was your best achievement? Your stupid primary school diploma!

Stop crying!

Mom, stop, i don't want to dissapoint you anymore
And to top it off, you don't even have a husband

You are always drinking. I have achieved weaponry advances that help to protect our country. Do you know how complicated my reputation is with you?
If you keep being a waste, i'll tell everyone i never had a daughter; and besides, you forgot to inject yourself the antivirus, idiot. You are going to die

You and your stupid bottle!!
Teenk

You damn drunkard, you disgust me, i wish you weren't my daughter

Glug Glug Glug

How pathetic...
